

TEMPERFORM/20/RED F machine, works with ho

jection molding

machines in the thermoplastics industry.
hot and cold water in, among other
plastics where the injected plastic in the
order to obtain an optimal end result.

resistant, dimensionally stable and extremely flexible hose.

Felirat: ® TEMPERFORM -20°C / +100°C WASSER/WATER

Working pressure: 20 bar +20°C-on

Burst pressure: 60 bar +20°C-on

Heat resistance: -20°C / +100°C (not for steam or oils)

inside: EPDM, black, smooth

outside: Epdm red smooth

Storage lots, splitting of the rolls are possible. Meantime, we hold the right of selling the stock in products.
